Los Angeles, CA 90077

Dear Dr. Mileikowsky:

The Medical Board of California has concluded its review of the information you submitted regarding your concerns about the peer review process conducted by Encino-Tarzana Regional Medical Center. You asked that the Medical Board initiate an investigation into the practice of this center indicating that they had filed a false 805 report suspending your hospital privileges and withheld exculpatory information from you.

As you are aware, the Medical Board is responsible for performing an investigation when an 805 report has been filed to determine whether any action should be taken against the physician based on the circumstances reported by a peer review body. The Board is in the process of investigating the circumstances reported by Encino-Tarzana Regional Medical Center in the 805 report they filed. I have taken the liberty of providing the information you submitted to the investigator assigned to this case as it appears to relate to the issues raised in the 805 report.

However, the Board has no statutory authority to investigate hospital peer review bodies for any functions or restrictions they impose. For that reason, we have referred a copy of the information you provided to the Department of Health Services, Licensing and Certification Division, for any assistance they may be able to provide.

Sincerely,

Susan Cadry
