Dear Doctor Mileikowsky:

This letter is in response to your correspondence, which the Board received August 6, 2005. You question the Medical Board's failure to publicly disclose, on the Board's Internet Web site, information pertaining to former Medical Board of California Consultant, Randolph H. Noble, M.D.

Business and Professions Code Section 803.1 and 2027 (copies enclosed) defines the information that the Medical Board is required to lawfully disclose via the Board's Internet Web site. I have reviewed the Medical Board records and confirmed that the information posted on the Web site pertaining to Doctor Noble is accurate and furthermore, there is no other information regarding Doctor Noble that the Medical Board of California is required to lawfully post.

If you have information, as defined in the aforementioned sections of the Business and Professions Code, which refutes the accuracy of the information posted regarding Doctor Noble, please provide it to me at the address shown above.

Sincerely,

A handwritten signature in black ink, appearing to read 'Joan M. Jerzak'.
